INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Anguilla Youth Business Foundation

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Anguilla Youth Business Foundation (the "Foundation"), which comprise:

- the statement of assets, liabilities and deficit as at December 31, 2020;
- the statements of revenues and expenses, changes in changes in deficit and cash flows for the year then ended; and
- notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards for Small and Medium-sized entities (IFRS for SMEs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Foundation in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Anguilla, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards for Small and Medium-sized Entities (IFRS for SMEs), and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

Report on the Audit of the Financial Statements *(continued)*

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern.

- If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITOR'S REPORT *(continued)*

To the Board of Directors of Anguilla Youth Business Foundation *(continued)*

Report on the Audit of the Financial Statements *(continued)*

Auditor's Responsibilities for the Audit of the Financial Statements *(continued)*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, related safeguards.

The accompanying notes from pages 9 to 22 are integral part of these financial statements.

1. General information

Anguilla Youth Business Foundation ("the Foundation") was registered in the Anguilla registry of Commercial Activities, incorporated on June 21, 2017 and domiciled in Anguilla, The British West Indies.

The Foundation was established under the Anguilla Foundation Act to provide business development and support services to young people residing in Anguilla.

The Foundation's registered office is the registered address of Paragon Corporate Services Ltd., registered agent located at P.O. Box 371, Babrow Building, The Valley, Anguilla, British West Indies (B.W.I.).

2. Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards for Small and Medium-sized Entities (IFRS for SMEs) and interpretations issued by the International Accounting Standards Board (IASB) as at December 31, 2020.

(b) Basis of measurement

The financial statements of the Foundation have been prepared on the historical cost basis.

(c) Functional and presentation currency

These financial statements are presented in Eastern Caribbean Dollars, which is the Foundation's functional and presentation currency. Except as otherwise indicated, financial information presented in Eastern Caribbean Dollars has been rounded to the nearest dollar.

(d) Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

3. Significant accounting policies

The accounting policies set out below have been applied consistently by the Foundation to all periods presented in the financial statements:

(a) Impairment

The carrying value of the Foundation's assets is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the profit or loss

If in subsequent period the amount of impairment loss decreases, and the decrease can be linked objectively to an event occurring after the write down, the write down is reversed through the statement of profit or loss.

A previously recognized impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount, however, not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in prior years.

(b) Foreign currency transactions

Transactions in foreign currencies are translated to Eastern Caribbean Dollars at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Eastern Caribbean Dollars at the exchange rate at that date.

Foreign exchange differences arising on conversion and translation are recognized in the statement of revenues and expenses. Non-monetary assets and liabilities denominated in foreign currencies that are stated at historical cost are translated to Eastern Caribbean Dollars at the exchange rate at the date of the acquisition.

(c) Financial assets

i. Recognition
The Foundation’s initially recognizes financial assets on the date that they are originated.

ii. Classification
The Foundation’s classifies its financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity, loans and receivables and available-for-sale.

iii. Derecognition
The Foundation derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Foundation is recognized as a separate asset or liability.

3. Significant accounting policies *(continued)*

(c) Financial assets *(continued)*

iii. Derecognition *(continued)*

The Foundation derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Foundation is recognized as a separate asset or liability.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the statement of assets, liabilities and fund balances when, and only when, the Foundation has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from a group of similar transactions.

v. Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

vi. Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

The determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations for financial instruments traded in active markets. For all other financial instruments, fair value is determined by using valuation techniques. Valuation techniques include net present value techniques, the discounted cash flow method and comparison to similar instruments for which market observable prices exist.

vii. Identification and measurement of impairment

At each reporting date, the Foundation assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

3. Significant accounting policies *(continued)*

(c) Financial assets *(continued)*

vii. Identification and measurement of impairment *(continued)*

The Foundation considers evidence of impairment at both a specific asset and collective level. All individually significant financial assets are assessed for specific impairment. All significant assets found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are then collectively assessed for impairment by grouping together financial assets (carried at amortized cost) with similar risk characteristics.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan or advance by the Foundation on terms that the Foundation would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group.

In assessing collective impairment, the Foundation uses statistical modelling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by the historical modelling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Impairment loss on assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and the present value of estimated cash flows discounted at the assets' original effective interest rate. Losses are recognized in the statement of profit or loss and reflected in an allowance account against receivables.

When a subsequent event causes the amount of impairment loss to decrease, the impairment loss is reversed through the statement of profit or loss.

(d) Non-derivative financial instruments

Non-derivative financial instruments comprise of cash in bank and accounts payable and accrued expenses. Non-derivative financial instruments are recognized initially at fair value. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

Cash in bank and Investment securities
Cash in bank and investment securities is comprised of cash deposits with the local banks and are not subject to a significant risk of change in value.

3. Significant accounting policies *(continued)*

(d) Non-derivative financial instruments *(continued)*

Accounts payable and Deferred income
Accounts payable and deferred income are non-derivative financial liabilities with fixed or determinable payments that are not quoted in an active market and that the Foundation does not intend to sell immediately or in the near term. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

(e) Equipment - net

i. Recognition and measurement
Items of property & equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for its Intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment. Borrowing costs related to the acquisition or construction of qualifying assets is recognized in the statement of profit or loss as incurred.

When parts of an item of equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment. Gains and losses on disposal of an item of equipment are determined by comparing the proceeds from disposal with the carrying amount of equipment and are recognized net within "other income" in the statement of profit or loss.

ii. Subsequent costs
The cost of replacing part of an item of equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Foundation and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of equipment are recognized in the statement of profit or loss as incurred.

iii. Depreciation
Depreciation is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives of each part of an item of equipment. Depreciation commences once the asset is available for use in the operation.

The estimated useful life of the equipment is three (3) years.

The asset’s useful life and depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of equipment.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further charge for depreciation is made with respect to those assets.

3. Significant accounting policies *(continued)*

(f) Revenue recognition

Government subventions
Government subventions are income derived primarily from the Government of Anguilla (GOA) in the form of fixed annual subventions. These subventions are the sole source of the Foundation's operating income.

Other grants and donations
Grants that compensate the Foundation for expenses incurred are recognized in profit or loss on a systematic basis in the same periods in which the expenses are recognized. Grants collected in advance with no expenses being incurred are shown as other assets and deferred income in the statement of assets, liabilities and fund balances, respectively.

Interest income
Interest income on deposits with banks is recognized on a time-proportion basis using the effective interest method.

Other income
Other income which are not directly attributable to the ordinary conduct of Foundation's operations are recognized as income in the period earned.

(g) Expense recognition

Expenses are recognized when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses are recognized when they are incurred.

(h) Provision

A provision is recognized if, as a result of a past event, the Foundation has present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provision is determined by discounting the expected future cash flows that reflects current market assessments of the time value of money and the risks specific to the liability.

(i) Related party transactions

Parties are considered related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities. Transactions between related parties are based on terms similar to those offered to non-related parties.

(j) Events after reporting date

Post year-end events that provide additional information about the Foundation's financial position as at the reporting date (adjusting events) are reflected in the financial statements when material. Post year-end events that are not adjusting events are disclosed in the notes to the financial statements when material.

4. Determination of fair values

A number of the Foundation's accounting policies and disclosures require the determination of fair value for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods:

(a) Cash in bank and Investment securities
The fair value of cash approximates carrying value due to its short-term nature.

(b) Loans and other Receivables - net
The fair value of receivables - net approximates carrying value due to its short-term nature.

(c) Accounts payable and other payables and deferred income
The fair value of these liabilities approximates carrying value due to its short-term nature.

5. Cash in bank

	2020	2019
General Fund	**41,510**	134,000

Loans and other receivables - net			**306,305**	353,440

6. Loan and other receivables – net *(continued)*

The Get Set Programme is an agreement between the Foundation and the Anguilla Development Board (the "Board") to create a revolving loan facility for the purpose of assisting and empowering youth who aim to establish their own business and be entrepreneurs. Initially, a total of $280,000 restricted fund was disbursed to the Board for the purpose of loaning out to qualified borrowers as defined in the signed memorandum of understanding between the Foundation and the Board, Ministry of Social Development, Government of Anguilla.

The Fund is not subject to interest and repayment terms but may be terminated by either party by giving the other party no less than three (3) months written notice. On termination, any loan amounts outstanding shall continue to be due and payable and the balance of the loan funds will be returned to the Government.

The allowance for impairment loss pertains to loans extended by the Board that collection is considered doubtful. Movement of the allowance for impairment loss follows:

	2020	2019
Beginning	**118,851**	-
Provision	**-**	118,851
Reversal of impairment loss	**(13,179)**	-
	105,672	118,851

Reversal of impairment losses pertain to the amounts collected from impaired loans receivable.

Breakdown of loans facility fund with the Board:

	Fund	2020	2019
Loan and interest receivable	Restricted	223,506	223,506

(a) General Endowment Fund
The fund came from the Government of Anguilla for the purpose of complying with the statutory requirement that the Foundation shall established a fixed deposit as an endowment fund on its own bank account. See Note 7 for the details.

8. Restricted Funds *(continued)*

(b) Government of Anguilla – Innovate Anguilla Project
During the year, the Government of Anguilla funded portion of the capital expenditure for Anguilla Innovate Project under the administration of the Foundation and Department of Youth & Culture. The Innovate Anguilla is a Foundation project which is still in the planning stage with the main vision of creating an environment conducive to entrepreneurship and employment creation for young Anguillan Entrepreneurs and encourage IT professionals primarily App developers from across the globe to set up in Anguilla. As at December 31, 2020, the Foundation is still in the process of securing additional investment to fully implement the project, thus, no funds were utilized as at year end.'

(c) Erasmus+ Programme Grant
During the year, the UK National Agency awarded a grant to the Foundation for the Project Inspire young people, inspire new Leaders ("the Project") under the Erasmus+ Programme, Key Action 1: Learning Mobility of Individuals. The Project ran for ten (10) months from August, 2019 and was completed on May 2020. The maximum amount of the grant is EUR31,256 or EC$61,473. All funds were fully utilized.

(d) Due to General Fund
i. A reconciliation of restricted funds shows that the foundation used EC$84,000 of funds granted by the government of Anguilla for the Get Set loan for operational purposes.

12. Related party transactions

A party is related to the Foundation if:

a. Directly or indirectly the party:
   - Controls, is controlled by, or is under common control with the Foundation;
   - Has an interest in the Foundation that gives it significant influence over the Foundation; or
   - Has joint control over the Foundation.

b. The party is a member of the key management personnel of the Foundation.

c. The party is a close member of the family of any individual referred to in (a) or (b).

d. The party is a post-employment benefit plan for the benefit of employees of the Foundation or any Foundation that is a related party of the Foundation.

The Foundation's related party transactions as at and for the year ended December 31, 2020 and 2019 are summarized as follows:

	Notes	**2020**	2019
Related party transactions			
Government of Anguilla			
Government subventions		**70,605**	64,605
a. GET SET training		14,000

	33,084	**-**	**33,084**	66,888

14. Significant event during the financial year and subsequent to the end of the reporting period

On-going effects of COVID-19
As at report date, the coronavirus (COVID-19) outbreak which became an official pandemic on March 11, 2020 has prompted global health and economic concerns. Coronavirus affected entities in nearly every sector, due to the following impacts:

- Reduced consumer demand for goods and services due to lost income and/or restrictions on consumers' ability to move freely;
- Lack of investment in capital improvements and construction reducing demand for many goods and services;
- Reduction in market prices for commodities and financial assets, including equity and debt instruments; and
- Disruption of global supplies chains due to restrictions placed on the movement of people and goods.

The above resulted in various closures of businesses, travel ban and border closures in different countries which include the Anguilla. Currently, it is not possible to determine or quantify the effect that such a subsequent event may have on the Registered Agent, since it will depend on future developments at the national and international levels, which are uncertain and cannot be predicted.

The foundation has shifted all activities through the use on online conference technology. The Foundation will continue to assess, monitor and remains cognizant on the ongoing effect of the COVID-19 pandemic to the Company's operations and financial statements subsequent to December 31, 2020.
